PUBLIC COMMENT SESSION – WHEELAGE TAX
County Administrator Pat Oman provided information to the County Board regarding the current wheelage tax and when it was approved last. Oman noted that the County Board has not approved an increase to wheelage tax, but has approved public comment on wheelage tax. Oman noted that 2 years ago the state statute provided for legislation to increase the wheelage tax in whole dollar increments up to $20. Oman noted 53 of 87 counties have a wheelage tax with 12 of them currently having a $20 wheelage tax.

Cmsr Wilhelm motioned to open the public comment session at 9:06 a.m.; Cmsr Oslin seconded. Motion carried. Cmsr Tellinghuisen asked if anyone would like to speak or comment.

Roxanne Gerads, tax payer and small business owner in Mille Lacs County addressed the County Board. She questioned the additional $10 per vehicle proposed wheelage tax. Gerads stated they have commercial vehicles and personal vehicles and she feels it would be detrimental as they are already overtaxed, with the additional ½ cent sales tax added prior to this. She stated with property taxes already doubling and with an increase in wheelage tax per vehicle, it will be over burdening to them as tax payers.

Pete Pederson, speaking on behalf of the City of Milaca and on behalf of himself. He stated he’s been on the City Council since 1975 excluding 3 years. Every year the City Council have talked about keeping the levy low because they know the County will raise the tax yearly. The City of Milaca is currently working on City Budgets to be submitted in September and they already don’t know where they stand on a couple taxes that are in question. Pederson stated the Dispute tax has been asked to be on the agenda four times and denied four times. Pederson questioned when and why this wheelage tax came up and how long has the county been discussing it with now such short notice to the City.
Pete Pederson addressed the County Board as a taxpayer stating that raising taxes overburdens the citizens. Mr. Pederson stated that Mille Lacs County is the lowest income highest taxed county. They are overtaxed and enough is enough. By doubling the tax from $10 to $20 it would be too hard and many people are on a fixed budget.

Gene Powell, Small Business Owner and Senior Citizen Resident stated the extra $10 would be hard on seniors and is just too steep.

County Administrator Oman stated that the county received four responses via Facebook. Those citizens were asked to email us with their comments but no comments were received.

Jeff Gaslin, via email, questioned why we don’t charge the Amish for road use as they do in Indiana. He stated if there is an accident we have to pay and they don’t.

Gerald Nohner asked if the wheelage tax were passed will it trickle down to the townships. Townships have no money for road grading. Mr. Nohner stated that if the revenue from the wheelage tax trickled down to the townships, he would be more in favor of the increase.

Administrator Oman explained the difference of LOST funds vs. wheelage tax funds. LOST funds are for specific roads that are reviewed at public hearings whereas wheelage tax is a general tax for Public Works purposes. These proposed funds will be used to purchase Public Works heavy equipment on the five-year Capital Plan. The option to trickle down to a township is there, but is not being proposed to the County Board at this time.

Pete Pederson asked if the County Board was asked in an open or closed County Board meeting. Oman stated that the County Board would not be able to go into closed session regarding wheelage tax as it would not meet state statute. Oman reviewed that this has been brought up in all open meetings and work session meetings even as long as two years ago when the tax increase initially got passed at the Legislator.

Cmsr Oslin motioned to close the public comment session at 9:20 a.m.; Cmsr Wilhelm seconded. Motion carried.
