BURIED SEWER CONSTRUCTION AND TESTING CERTIFICATION

- This form is to be completed and submitted to Mille Lacs County Land Services Office when making installation of a buried sewer.
- Only the newly installed building sewer needs to be inspected and pressure tested.
- The tester must be a certified pipelayer or Minnesota licensed plumber.
- The building sewer must meet the material standards of the 2015 Minnesota Plumbing Code.
- Air Test requirements: 5 psi constant pressure for 15 minutes.

Site Address for Sewer Location: \_\_\_\_\_

Describe the portion of the buried sewer system tested (specify each segment of sewer pipe that was tested):
